

Geography

At Hurst Drive Primary School, we want children to enjoy learning about the world around them and understand the different places, people and environments that make our planet unique. Through Geography, children develop curiosity, ask questions and explore both their local area and the wider world.

Each year group studies different geography topics, including:

- Our Local Area
- Beside the Sea
- Planet Earth
- The USA
- Kenya
- South America
- Types of Rocks
- Rivers and Mountains
- Weather and Climate

Children learn through map work, fieldwork, observations and practical activities. They develop skills such as reading maps, collecting information and comparing different places around the world.

At Hurst Drive, we provide an exciting Geography curriculum that helps every child learn and succeed. We have high expectations for all pupils and encourage everyone to achieve their best, reflecting our school vision of '**Success For All**'.

At Hurst Drive Primary School we aim to:

- Develop an understanding of the world and the different places within it.
- Learn about physical and human geography.
- Develop map-reading and fieldwork skills.
- Compare different countries and environments.
- Ask and answer geographical questions.
- Develop curiosity about the world around them.
- Inspire a love of geography and learning.
