

At Hurst Drive Primary School, our vision is to provide a science curriculum which enables pupils to confidently **explore** and **discover** the world around them, so that they have a **deeper understanding** of the world we live in.

### We believe science is good when ...

... we work together.

... we observe what happens.

... we can relate learning to our own experiences.

... we carry out practical experiments.

... we work like scientists.

... we learn outdoors.

... we have fun.

... we have lots of resources to use.
